

NORDIC PANORAMA DESIGN

New LED pendants, model **PIPE** from ODSIF. Inspired by Nordic Nature – here Svartifoss in Iceland, where the hexagonal basalt columns underlying it almost remind you of pipes in a big church organ, wherefore ODSIF has named this new model PIPE

ENERGY-FRIENDLY LED

The LED pendant has soft power on/off and dimmer function. Furthermore, it is energy-friendly and there is no need for changing bulbs - the LEDs have a long lifespan (approx. 50.000 hours). Power consumption: 12W. Luminous intensity up to 485 lm.

CLASSICAL OR FRESH COLOURS

Produced from aluminium with polished anodized shade. The shade is available in several colours – e.g. fresh colours like pink, orange, and green, which lighten up your kitchen and dining room. The pendant look well when hanging together in a group or row. The LED lamp is 32 cm height and the diameter of the shade is 9 cm.

WALL SWITCH AND/OR SMARTPHONE

The lamp is operated from wall switch, but if you are riding the SmartPhone wave, it is also possible to operate the lamps via the SmartPhone.

Recommended retail prices: From EURO 194.- with warm-white LED. Price with built-in light themes: EURO 276.-.
